FOLEY'S  
KIDNEY CURE

Will cure any case of Kidney or Bladder disease that is not beyond the reach of medicine.

**Two Boxes 25 Cents and \$1.00**  
Sent by Red Cross D. O. St.

## A ROUND OF TALK.

## A Song of Hard Times.

(By Mrs. Solon H. Heese.)  
"Well, wife, I've tried the best I could  
To earn a living on the farm,  
But times are growing worse and worse  
And now it gives me a  
Man may never work more till night,  
And never, never work more,  
But there's not a cent of money  
For the man who does the work."

"Don't stay on the farm, love,  
I've told you long ago,  
There's nothing in the farm now  
For the man who works the row."

"Our crops are good, our lands pro-  
duce;  
That's not the reason why  
We never have any money  
And 'hard times' is the cry,  
But the roads of our country  
Have put prices down so low  
That we raise our cotton now  
For six cents, and sell it at four."

"And wife, I think of good old days—  
In the years that have gone by,  
When there was plenty everywhere,  
And there was no cause to sigh,  
But, ah! since then how times have  
changed!"

Gets worse and worse each year  
When we look into the future,  
O, who can help but fear.

"I love the farm, for, wife, you know  
I was there that I waivered.  
My father was a happy man—  
Those good old days are praised.  
So I'll stay again and try, my dear,  
To run the plow and hoe;  
But, wife, I am determined  
To let the cotton go."

"Then stay on the farm, love,  
For that's what you know.  
I've told you all the time  
To let this cotton raising go.  
Let your farm be self-supporting.  
And, my dear, keep out of debt,  
And I think you soon will see,  
There's money in farming yet."

"Then stay on the farm, love,  
For that's what you know.  
I've told you all the time  
To let this cotton raising go.  
Let your farm be self-supporting.  
And, my dear, keep out of debt,  
And I think you soon will see,  
There's money in farming yet."

"Then stay on the farm, love,  
For that's what you know.  
I've told you all the time  
To let this cotton raising go.  
Let your farm be self-supporting.  
And, my dear, keep out of debt,  
And I think you soon will see,  
There's money in farming yet."

"Then stay on the farm, love,  
For that's what you know.

screen door, mowing for some one to let her in. Mr. Dog hears rushes up to help her, pulls open the door with his stronger paws and holds it while she enters. Then he goes on about his play or sleep. Strange to say, Mr. Dog himself has never shown a disposition to enter the sacred confines of the kitchen, seemingly being content if he can perform this unselfish service for Mrs. Cat.—Louisville Herald.

## To Train.

The training stable of Mack Hughes is full of a lot of good saddle horses and several prominent blue ribbon winners the past season have been sent to Mr. Hughes by out-of-town parties to winter. Among the late arrivals is a six-year-old stallion by Chester Dare, owned by Beverly Leachman, of Springfield, that was prominent among the winners during the fair circuit. A mare belonging to Bud James that was shown at Danville, Hustonville, Lancaster and other prominent fairs, and a three year old mare belonging to Samuel Harris, of Lexington—Kentucky Advocate.

## Plans to Get Rich

are often frustrated by sudden break-down, due to dyspepsia or constipation. Brace up and take Dr. King's New Life Pills. They take out the materials which are clogging your energies, and give you a new start. Cure headache and dizziness too. At Hayden's Pharmacy, 25c, guaranteed.

## To Break

Oliver Gribbens Files Suit to Have His Fathers Will Set Aside.

Oliver Gribbens has through his attorneys W. C. McChard and John W. Lewis filed suit in Circuit Court asking the court to set aside the instrument probated in the County Court as the last will and testament of J. F. Gribbens, deceased. The simple allegation is made that it is not the last true will and testament of J. F. Gribbens. Geo. W. Coccagno is named as executor of the will and the court is asked to restrain him from selling the property of the deceased or to otherwise proceeding to carry out the provisions of the will.

## IN THE BASQUE COUNTRY.

The Peculiar Language and Old Customs of the Basque Country.

Of the strange scenes and customs of the Basque country a traveler writes: "It was strange to see the way in which the Basques carried their cattle. A fat old woman with a huge tray on her head walked along at a swinging pace, shouting her 'vance' as she went. I saw a woman carrying on her head first of all a large tray of fruit, then a tray of vegetables, and then a tray of meat. When I told you that it was afterward her stall, on the top of this were a basket of washing and a big umbrella. It was used to cover the stall. The woman carried a small tray of a little child which could just reach the woman's hand by holding its own up as high as it could stretch.

There is a dignity of carriage about all the women in this country. I found it might be due to the fact that formerly, before the Code Napoleon came into operation, the law forbade the women to wear high heels or to wear jewelry, whether by girl or to inherit the patrimony and continue the head of the family, the husband taking the wife's name when the latter was a woman, thus giving the woman a perfect equality with her husband. The rooster, which was a young one of the Plymouth Rock stock, has for some time past shown a disposition to fight anyone who would come to the back yard. Saturday as Master Clarence passed through the yard, paying no attention to the chicken the attack was made. The rooster has since been sold.—Lebanon Enterprise.

## A Scrupy Rooster.

As a result of an attack by a vicious rooster Master Clarence Hill, the seven year old son of Mr. and Mrs. G. S. Hill, was badly lacerated on the face and about the head last Saturday. The rooster, which was a young one of the Plymouth Rock stock, has for some time past shown a disposition to fight anyone who would come to the back yard. Saturday as Master Clarence passed through the yard, paying no attention to the chicken the attack was made. The rooster has since been sold.—Lebanon Enterprise.

## THE SACRED BO TREE.

One of the Most Wonderful Natural Growth Ever Known.

In October, 1887, the sacred bo tree, at that time supposed to be the oldest living vegetable monument on earth's surface, was uprooted and destroyed by a cyclone which swept over the island of Ceylon. The oldest written description of the sacred tree now in existence is that by the celebrated Chinese historian, Fa Hian, who visited the island and the sacred tree in the year 414 A. D. According to this learned Chinaman, the tree was at that time 702 years old, having been planted in the year 286 before our era by King Devanapriyastasi. As soon as it was known through the travels of the Chinese that the tree had been destroyed by the fury of the elements great crowds of mourners gathered around its 'sacred remains' and held regular funeral services for three weeks. After the season of mourning was over the tree was cut into proper lengths, each piece wrapped separately in white cloth and cremated with the same funeral rites which could have been given to a member of the royal family.

So perished the sacred bo tree, one of the most wonderful natural growths known to the world—a tree which had been worshipped daily, one night at least every hour, for 1,176 years.

## Lebanon Court

October county court was one of the largest attended in a long time and while there much stock on the market, but small portions of it changed hands. Auctioneer Estes sold 1 pair of mares for \$252; 1 mare and colt \$76; one 2 year old horse \$80. The Vancleave farm of 272 acres, near St. Mary, was purchased by A. Vancleave at \$23.50 per acre. E. N. Handley purchased 100 acres on Danville pike at \$40 per acre. A bunch of cattle, average weight 740 pounds, brought 3 cents per lb. A few weanling mules changed hands at prices from \$60 to \$100.—Enterprise.

## A Pleasure to All.

No Pill is as pleasant and positive as DeWitt's Little Early Riser, and effective that children, delicate ladies and weak people enjoy their cleansing effect, while strong people say they are the best liver pills sold. Sold by all Druggists.

## A Matter of Health

There is a quality in Royal Baking Powder which promotes digestion. This peculiarity of Royal has been noted by physicians, and they accordingly use and recommend it exclusively.

ROYAL BAKING POWDER CO., NEW YORK.

## OF LOGAL INTEREST.

## Lewis-Manget—Mr. and Mrs. John W. Lewis have announced the engagement of their daughter, Miss Mary Annet Lewis to Mr. Frederick Manget, of Louisville. The wedding will be a quiet home affair and will be solemnized at the Lewis home on this place on Saturday, October 28. The bride-to-be is one of Springfield's most attractive young ladies and is popular with a large circle and as the Courier-Journal in giving an account of the wedding says: "Miss Lewis is almost as well known in Louisville as she is at her home, as she has made frequent visits to her aunt and cousin, Mrs. Samuel A. Lewis, and Mrs. Brainerd Lemon, and to Miss Annie Hodgson Long. She is a most charming young girl, and will add another name to the attractive young matrons of Louisville. Mr. Manget is a fine young business man, who has been in Louisville for the past four years but whose home was originally in St. Louis.

What She Played.

The Last Made That Theodore Thomas as Heard on Earth.

During the last illness of Theodore Thomas, although he was not at any time unconscious or delirious, he hardly noticed the members of his family as they sat and went at his bedside. But one morning he seemed to be better. He made little jokes with the doctors and his sons and talked about his 'White Mountain' home. At 12 o'clock he seemed better. The editor of his autobiography says that he was into a dreamy state, and then turned himself to say to his wife in a hugging, ecstatic voice: "I have had a beautiful vision—a beautiful vision!"

Then he drifted off into silence. The wife thought he was tired and went downstairs to lunch, but shortly with the purpose of leaving him to rest. "Do you know what you have played?" asked one of the family. "The call that is sounded over the graves of dead soldiers."

She rushed back to the bells and played the call engraved on a metal plate in his hand. Afterward she found that this was precisely the signal to rise. "It had changed that the last time he played it," said the wife. "It was a symbol of death and resurrection—YOUTH'S COMPANION."

## STYLES IN COATS.

Of the Cossack Frocks, the French and the Great Coat.

The modern cutaway spring from the body fitting just above the knees, as known in the costume of Louis XIV and Louis XV, and the garment was in turn probably evolved from the frock or tunic worn in the fourteenth century.

The first trace of a cutaway in anything like its present form, says the historical Art Journal, is to be found in the prints of French military uniforms, early in the eighteenth century. For centuries a "cutaway" coat, the falling being very long. In 1800 it was adopted in France for walking and well as riding and was then in shape and cut much nearer the modern cutaway than any of its predecessors, though it was usually double breasted.

Early in the nineteenth century the cutaway had eight or nine buttons, only the fourth, fifth and sixth being used. This admitted of the wearer showing his necktie, fancy waistcoat and filled shirt to the best advantage. Not till 1840 or thereabout did the cutaway become almost identical with the modern garment and since then, the changes in its shape have been comparatively slight. In 1841 the "cutaway" became a fixture in the language.

The old colonial uniform worn by Washington, with its deep buttoned back, the coat worn by Nelson at the battle of St. Vincent, the Nile and Trafalgar, and the coat worn by Napoleon when on his way to St. Helena, were in a general way similar to the cutaway frock.

The conventional dress coat of our time is a refined younger brother, as it were, of the cutaway frock, and for it we are indebted to the French, who on the other hand credit the English with originating the coat that has evolved into our double breasted frock. The coat last named was introduced into France by Montesquieu in the year 1720.

Incidentally, we may add, the present black dress coat has by the English speaking nations been recognized as evening wear little more than half a century. In some continental countries the dress coat is "proper form" for wear at court or other important formal assemblies held in the daytime.

The coat probably dates from the "Macarines," who introduced it into England in 1772, though a garment somewhat similar was worn by the Roundheads of Cromwell's day.

## POINTED PARAGRAPHS.

An elderly person is a mighty poor judge of a circus.

We don't blame the children. We have done worse than kick and scream to have our way.

The young hawk work, but it is the last pride, the last joy of the aged, that they are able to do.

Sometimes a husband has this kind of misfortune: Her guests have such a good time they don't want to go home.

Be careful what you say to some people. [N. B.—On the second day we have decided not to use that word "some!"]

When a man has a picture taken, for the first five weeks afterward he spends a great deal of time in taking surreptitious looks at it and wondering if every one else sees the good points in it so plain to his eyes.

Minute Animal Life.

"The microscope teaches us," says a scientist, "that there are animals so wonderfully minute that if a thousand of them were ranked along they could easily swim, without being thrown out of order, through the eye of the finest needle ever made."

Yet each of the minute creatures is a highly organized mass of particles, capable of moving about, feeding and devouring food and of behaving in all respects as becomes an animal as distinguished from a fragment of unorganized matter. The human mind is utterly incapable of realizing the structure of these little creatures and of fully appreciating the marvelous adaptation to the life they are destined to lead.

## Kentucky Kernels.

There are 100 counties in Kentucky, and in ninety there are no towns with a greater population than 500.

Getting busy is the Paducah Retail Merchants' Association advertising within a radius of seventy-five miles.

Early frosts and an early winter are predicted. Thick corn husks seem to be the sign known to farmers.

Eliah Harrey, sixteen years old, of Valley View, carelessly missed a revolver. Two fingers gone from left hand.

Annie Lewis Vivion, of Harrodsburg, an accomplished musician, will tour the coming season with Boynton Lyceum Company.

A bird resembling the woodpecker variety, but with two heads, alive and both heads "working," found in Spencer county.

"Dan," an English bulldog belonging to Henry Hays, of Jessamine county, chewed an arm off Fred Long, a negro chicken thief.

R. L. Vinson, of Louisville, paid \$300 for thirty-one pounds of ginseng and placed his purchase in the national bank until ready to use.

Nine-year-old Caudill Weddington, of Little Sandy, stepped on a nail and the doctors sawed off the foot because of blood poisoning.

Sarah P. McDaniel regards marriage a failure so far as her husband is concerned. She has jossessed him for the fourth time for divorce.

At a "dive" supper given by the Iron Hill church, Mans St. Ford ate four pine and fainted on the fifth. She's now called the most pitiful member.

George Berry's large tobacco barn near Mt. Olivet filled with new crop tobacco has gone up in smoke. Crib of corn went the same way at the same time.

Grover Cleveland, a black cat belonging to Henry Grover, an Adair county farmer, returned home after having been taken seventy-five miles distant.

Young Grover took Grover out with him to visit grandparents but Grover would not stay.—Post.

## For All Kinds of Pains.

To draw the fire out of a burn, heal a cut without leaving a scar, or to cure boils, sores, tetanus, eczema, and all skin and scalp diseases, use De Witt's Witch Hazel Salve. A specific for blind, bleeding, itching and protruding piles. Stops the pain instantly and cures permanently. Get the genuine. Sold by all Druggists.

## The Tobacco War.

"Not one pound of tobacco from the present Burley crop shall the Centennial get unless they pay us our own price." Such is the declaration of the managers of the Burley Tobacco Growers Association of Kentucky and Ohio, which recently organized with a capitalization of \$1,500,000. It is the intention of

the Association to take every pound of tobacco it can buy in respect of its membership, dry and store it, and then hold it until the demand of the tobacco factories makes its sale imperative. In the meantime all the independent companies and such factories as are not incorporated with the trust will be supplied with all the tobacco they require. This means that from 14 to 15 cents per pound must be paid for it. The Association is under contract to give 10 cents to its members and as the drying and storing will cost another 2 cents, it is estimated that from 2 to 3 cents additional on each pound will be required to pull the Association out.

That is yet to come depends upon the ability of the Association to hold the crop. If it can be successfully held, and the promoters now claim that it can, then for the 2 years hence will be under its control and the claim is made that the fight against the trust is won.—Lexington Leader.

## Pull of Trade Morning.

are these lines from J. H. Simmons, of Casey, Ia. Think what might have resulted from his terrible cough if he had not taken the medicine about which he writes. "I had a fearful cough that disturbed my night's rest. I tried everything, but nothing would relieve it, until I took Dr. King's New Discovery for Consumption, Coughs and Colds, which completely cured me. Instantly relieves and permanently cures all throat and lung diseases; prevents grip and pneumonia. At Haydon's pharmacy, guaranteed; 50c and \$1.00. Trial bottle free.

## A PERFUME THAT SMELLS.

The Awful Odor That Comes From Pure Attraction of Roses.

The perfume took from his desk a small flask of copper.

"In flask like this at the rear of each of us," he said. "At the rear of each of us is a small flask of copper, which is the odor of roses."

The visitor smiled delightedly. He had never smelt pure odor of roses before. Now he understood the stopper and, closing his eyes, with an ecstatic look he heaped his nostrils to the flask.

But only for an instant. Then he threw back his head, twisting his features into a grimace of disgust, and he exclaimed:

"Gosh! Bone yards! Glue factories!"

"The perfume lurked!" he said. "All essential oils smell like that." He put the flask of perfume in his pocket and walked without them.

He took from a shelf a glass jar labeled "Petroleum." He looked at the label and smiled. "In this jar," he said, "there are forty ounces of pure odor of roses over and over again. You know how the odor smells alone. Now watch me make a little perfume by adding this to a vial. He filled the vial with spirits of musk, odor of roses, etc. out of a small, so much so, that lately the authorities have been trying to exterminate the lion.

During the warm weather it's practically impossible to get a shot at one, they hide away among the impassable places about the cliffs. In winter when the snow flies they are hunted with dogs, a cross of blood hound and fox hound. Now wouldn't some of those old fox hunters through Kentucky pick up their ears to hear a dog cry and know that he was on a lion's trail?

This has been the greatest season for tourist that Yellowstone Park has ever known. The American people seem to have awakened to the idea, that they have been going abroad and this year has seen thousands of people not only from this country, but from all over the civilized world touring the park. To those who might think that things would grow monotonous after spending week or ten days, I could tell them of a prominent New York man and wife, who have had the advantage of very extensive foreign travel, who said to me, that they "had been here five times within past six years, and unless some thing prevented would return for a month or so next season."

I know the weakness of some people about Springfield, and some of them my very dearest

## YELLOWSTONE PARK

Lieut. Will Reed Writes of the Beauties of That Great Wonderland.

September 29, 1905.

One must be able to see, then, even partly appreciate its beauty. Any description that I might undertake would be shortcoming and hardly stimulate you for a sight of the realities of this the properly called "Wonderland of America."

A few days ago I stood on a little nook of ground near the junction of the Firehole and Gibbon River, and looked at a shaft upon which an inscription read, "This marks the camping place of the Washburn expedition who in 1872 first conceived the idea of converting this immediate territory into a National Park." Even to those men, who in that early day of the West, were accustomed to mountain scenery, to rugged cliffs, and jagged peaks, to cascades and waterfalls, men who had stalked the Elk and Deer and fired the deadly shot at Mountain Lion and Grizzly, they recognized that the "Boiling Geysers," the "Paint Pots" of white and pink and blue, and the deep and narrow canyons freckled by nature with the most royal colorings marked a "Wonderland."

Not only is it the natural scenery—but the animal life—which to many is the Yellowstone most attractive. This is the only spot in America, and one of the few on earth accessible to the ordinary man, where the big game roams his native heath undisturbed. The American Buffalo that until within the last quarter of century sometimes blackened the plains of some western States has retreated and civilized before the hand of perishment until the only remaining specimens outside of captivity are a small bunch of about an hundred that range in the park. The Big Horn Mountain sheep have always been known as the most lively animal—even in the days of plentiful game—it required the experienced hunter with lots of patience to get a specimen. Year by year they grow less in numbers. A few phoebos along the top of the Rocky Mountains here and there.

The only flock of consequence live just over Mount Everest within five miles of Ft. Yellowstone.

The Mountain Goat is even more scarce than sheep, and probably no where in North America, save a few that inhabit the most inaccessible points in the park can they be found.

The same is not true with Elk and Deer and Antelope and Bear, Mountain Lion, Timber Wolf, etc., all of which seem to flourish under protection. It may sound strange but it's true that all of the plateaus throughout the park, remote from traversed routes, are thick with antlers shed by Elk and Deer from spring to spring. Their numbers in the park would have to be counted by thousands. Quite frequently in winter their carcasses can be found showing signs of having been killed by wolves, so much so, that lately the authorities have been trying to exterminate the lion.

During the warm weather it's practically impossible to get a shot at one, they hide away among the impassable places about the cliffs. In winter when the snow flies they are hunted with dogs, a cross of blood hound and fox hound. Now wouldn't some of those old fox hunters through Kentucky pick up their ears to hear a dog cry and know that he was on a lion's trail?

This has been the greatest season for tourist that Yellowstone Park has ever known. The American people seem to have awakened to the idea, that they have been going abroad and this year has seen thousands of people not only from this country, but from all over the civilized world touring the park. To those who might think that things would grow monotonous after spending week or ten days, I could tell them of a prominent New York man and wife, who have had the advantage of very extensive foreign travel, who said to me, that they "had been here five times within past six years, and unless some thing prevented would return for a month or so next season."

I know the weakness of some people about Springfield, and some of them my very dearest

friends, but I can't help telling about the fish in this park. Right now I can see them, not the fish, sitting on the wet bank of Chaplain in the vicinity of Taishan Springs, or the Taishan about Fredericktown or Maud, with a grasshopper or chunk of beef hung onto their line waiting for hours for a nibble, from a fish who is only joking—never expects to bite. Now I'm no fisherman, they won't bite for me, besides I have been busy with other things most of my life, but I live with Dr. Manley, who by the way, is a Kentuckian, this will appeal to Judge Sealeman—who is a fisherman, moreover Manley's father was the Rev. Dr. Manley once President of Georgetown college, and of course the Judge knows that Manley under these circumstances would not be a few days ago Manley remarked at luncheon that he was going fishing that afternoon, during dinner he came in and I said, any luck? He remarked, "No, not much, they have quit biting, got thirty-six but don't think the biggest one weighs over four pounds."

Dutch Brown still with me, W. O. REED.

## ASTONISHING INCIDENT!

It was, to all her friends, an astonishing incident, that Mrs. I. B. Hunt, of Line Ridge, Wis., was cured of her dreadful sickness, "Doctors," she writes, "had given me up; friends were ready to bid me farewell. I was cured of my despair, darkened hours, and I was a wreck on the shores of despondency, when I began to take Electric Bitters, for my frightful stomach and liver complaint. To the astonishment of all, I was benefited at once and am now completely and miraculously restored to health." At Haydon's pharmacy, price 50c; guaranteed.

## Red Call Case.

Merced county's famous calf case has been settled. Two years ago Mr. George Woods and Mrs. Almira Brown, now live on adjoining farms near Talman, each owned a red calf. The two animals ran together in the Salt river bottom. One day one of the calves disappeared and the other one went over to Mrs. Brown's place. Mr. Woods contended that it was his calf, but the jury was unable to determine whose calf it was—and hung tight. Last week Mr. Woods and Mrs. Brown talked the matter over and decided to arbitrate, and each signed an agreement to abide by the decision, the loser to pay all cost. So Messrs. W. J. Hanna, Robert Sea and Robert Clemmons, three of the best and most substantial farmers in the county, were chosen as arbitrators, and after hearing both sides decided that the calf belonged to Mr. Woods. We are told that the calf is now worth about \$15 and that the cost will probably foot up in the neighborhood of \$150. Arbitration is the best way in the world to settle disputes and it is to be regretted that in this case it was not adopted at first.

## One Cold and Another.

The season's first cold may be slight—may yield to early treatment, but the next cold will hang on longer; it will be more troublesome, too. Unnecessary to take chances on that second one, Scott's Emulsion is a preventive as well as a cure. Take

when colds abound and you'll have no cold. Take it when the cold is contracted and it checks inflammation, heals the membranes of the throat and lungs and drives the cold out.

Send for free sample. SCOTT & BOWNE, Chemists, 405-409 Pearl Street, New York, N. Y. and all Druggists.

Presidential Election will make no change. No matter which candidate is elected, Foley's Honey and Tar will remain the people's favorite remedy for the colds, coughs and croup.

It cures colds quickly and prevents pneumonia. At J. N. Nushum, Batesville, Ind., writes: "I suffered for three months with a severe cold. I did not improve. I then tried Foley's Honey and Tar and eight doses cured me." Sold by The Red Cross Drug Store.

Thousands Have Kidney Trouble and Don't Know It.

Fill a bottle or common glass with your water and let it stand twenty-four hours. A sediment or floating matter indicates an unhealthy condition of the kidneys. If it stains your linen it is evidence of kidney trouble; too frequent desire to pass it or pain in the back is also it or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to get on during the day and to get up many times during the night. The mild and the extraordinary effect of Foley's Kidney and Bladder Remedy stands the highest for its wonderful cures of the most distressing cases. If you want a medicine you should have the best. Sold by druggists in 50c and \$1.00 sizes. You may have a bottle of this wonderful discovery and a book that tells more about it, both sent absolutely free by mail. Address Dr. Klinger & Co., 1111 Broadway, N. Y. Write for free literature. See the guarantee offered in this paper.

There is comfort in the knowledge as often expressed, that Dr. Klinger's Swamp-root, the remedy found in every well in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. It cures kidney trouble to hold water and bladder pain in passing it or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to get on during the day and to get up many times during the night. ## Cardwell.

The protracted meeting at Cornishville closed on Friday morning of last week. The baptism occurring at 9 o'clock and the closing services following. The pastor Rev. Reed was assisted by Rev. J. H. Dardine, of Mt. Eden, Spencer county, who told most earnestly the story of the Cross, and the Lord honored his word. Eight precious souls were enabled to follow the Saviour and were baptized in Chaplain river at Cornishville.

A surprise birthday dinner was given on Thursday the 28th in honor of the 65th birthday of Mrs. Mary Elizabeth Perkins, at her old home in Cardwell, now occupied by her son, Mr. E. T. Perkins. The dinner was prepared along with the perfect surprise by her children namely:

Wesley M. A. Perkins, Ara Gorman and Ada Tatum, and Messrs. L. E. and E. T. Perkins. Fifty-one were fed at the well served and beautiful dinner which consisted in short of everything that was good. The presenting by the children of an elegant ring was indeed very nice and all goes to show love and respect for and aged mother. We can never have but one mother and "there is no other can take the place of mother."

After dinner a devotional exercise led by Rev. Summers followed by a handshake completed the day that will long be remembered by those present.

Your correspondent was glad indeed to present and say with the many friends may the Lord's richest blessings rest upon the mother and may she be spared yet many and useful years.

Messrs. John Wheeler and Walter Lambert are in from Ill. Mr. Sabe Busby was the guest at Mr. Goldman Pattersons Thursday night.

Rev. Summers began a series of meetings with his church at Tatham Springs on Monday night. He is to be assisted by Rev. L. P. Pardom of Mackville.

Several from this place attended the dedication of the New Reformed church at Mackville.

Mr. Wm. Summers and wife, of Spencer county, visited his brother, Rev. Summers and family last week.

Married on the 26 at 3 o'clock p. m., at the home of Rev. Summers, Mr. Will Wood and Miss Audie Pinkston. The bride is a charming young lady of Ashbrook, while the groom comes from Ill. May their life be long and happy. On the 27th at 5 o'clock p. m., at Rev. Summers. Mr. Henry Satterly was married to Miss Hannah Robinson Young people of the Tabernacle vicinity. Congratulations and best wishes.

E. G. Holiday bought from W. B. Hatchett 6 hifers at 24 cents each, also from Cosby Calipatasame, from H. J. Brown, 1 cow at 20 cents and from N. B. Royalty 2 hifers at 24 cents, and from W. L. Graham, five cows at 24 cents; T. H. Pinkston from J. A. Kyler, 20 ewe lambs at \$3.50 per head, and from Will Hay, 21 ewes at \$4.50 per head, E. T. Perkins, horse for \$45 and a pony for \$20.

SIMPLE SIMON.

Has Stood the Test

A Washington Sunday newspaper pays the following deserved compliment to Senator Blackburn:

"It is a popular pastime to lampoon the United States senate because black sheep have been found in it. The unthinking critic attacks the senate, utterly ignoring the fact that the

black sheep were sent to it by certain States and that it is in no wise responsible for their selection. The state of Kentucky, fortunately, has the wisdom to retain in what is known as the higher branch of congress a man who reflects credit upon his State. Mr. Blackburn has passed through all kinds of tests. He has been faithful with modesty and has performed every duty he owed to the State and the nation. There may be men in Kentucky who could after years of service reach the distinguished place occupied by Senator Blackburn, but it would be an injury to the State and a loss to the country to deliberately destroy the prestige he has acquired by a lifetime of honorable service."

Incipient consumption is cured by Foley's Honey and Tar, but we do not hold out false hopes to consumptives by claiming that it will cure this dread disease in all its advanced stages; but if the lungs are not too far gone Foley's Honey and Tar will effect a cure, as it stops the racking cough and soothes the inflamed air passages giving them a chance to rest, and even in the advanced stages it always brings comfort and relief. A. A. Herre, of Finch, Ark., writes: "Foley's Honey and Tar is the best preparation for coughs and lung trouble. I have used it and it has cured consumption in the first stage." Sold by The Red Cross Drug Store.

Brakeman Killed.

Walter Leach, aged twenty-eight, a brakeman on the C. N. O. & T. P. freight between Lexington and Somerset, was crushed so badly while switching cars at Town station yesterday morning, about 11:30 o'clock, that he died about an hour afterwards, while being removed to Danville. The injured man was sent here immediately after the accident for medical attention, but while being transferred from the train to the station. His remains were sent to his home in Lexington on the 1:50 p. m. train. According to the story of a fellow brakeman, Leach was riding a car onto a side track, and was hanging on the side. He failed to see another car approaching from the opposite direction, and his body was crushed between the two. He had only been railroad-ing a short time—Danville Advocate.

Public Sale of Stock and Grain

Thursday, October 12.

Beginning at 1 o'clock p. m., one-half mile east of Valley Hill on the Bloomfield pike, we will offer for sale to the highest bidder the following property: One lay horse, 8 years old, bay horse, 10 years old, sorrel horse, 3 years old, black horse, 3 years old, black mare, 5 years old, in foal by Jack, bay mare, 7 years old, in foal by B. B. Leachman's horse, 1 work mare, 9 years old, sorrel mare, 2 years old, in foal by Jack, 2 work mares, 10 years old, 2 weanling mule colts, 2 milch cows, 9 extra good 1500-lb steers, 1 weanling beef, 15 head of 80-lb butter beef, 15 yearling steers, 24 good stock ewes, 2 good bucks, 1 thoroughbred Durc Boar, 18 months old, Poland China Sow, 9 pigs, 2 sows and 11 shoats, three 150-lb stock hogs, a lot of nice seed wheat.

TERMS:—All sums of \$10 and under cash, all over that amount on a credit of 9 months with interest from date.

S. P. DEBRINGER, J. E. O'NEAL.

Tobacco in the United States.

(Philadelphia Ledger)

In the production of tobacco the United States outruns all competitors. It is estimated that this country grows nearly one-half of the world's supply. There was an increase of nearly 60 per cent. in the area devoted to the tobacco crop from 1880 to 1900. The total value of our tobacco manufactures in 1900 was \$288,076,546. The revenue derived by the Federal government the last year from tobacco was \$65,882,105, greater than that derived by any other country from this source save by France whose total gross revenue from tobacco—a government monopoly—was \$81,085,041. It is not disclosed whether the customs and excise taxes on tobacco have and any effect upon the per capita consumption of the article in the United States.

Louisville at 6 p.m.; Bardstown  
Junction, 6:50 p.m.; Bardstown,  
7:35 p.m.; arrives at Springfield,  
8:25 p.m.

Notice.

All parties knowing themselves  
indebted to Sidney Green, de-  
ceased, either by note, or ac-  
count will please call and settle  
same at once. All parties hav-  
ing claims against said Sidney  
Green will present them prop-  
erly proven to us on or before  
the 1st day of November 1905.

C. A. Green & J. C. McElroy,  
Administrators of Sidney Green,  
deceased.

Consumptives Made Comfortable

Incipient consumption is cured by  
Foley's Honey and Tar, but we do not  
hold out false hopes to consumptives  
by claiming that it will cure this dread  
disease in the advanced stages; but if  
the lungs are not too far gone Foley's  
Honey and Tar will effect a cure, as it  
stops the racking cough and soothes  
the inflamed air passages giving them  
a chance to heal, and even in the ad-  
vanced stages it always gives comfort  
and relief. A. A. Hereta, of Finch,  
Ark., writes: "Foley's Honey and Tar  
is the best preparation for coughs and  
lung troubles. I know that it has cured  
consumption in the first stages." Sold  
by The Red Cross Drug Store.

at \$2 per 1000. J. F. Pettus

About 30 bushels of seed rye  
for sale. Dr. John Deboe.

For good meats go to Carpen-  
ter's butcher shop. He handles  
only the best.

Aunt Sallie's Salt Rising bread  
is still a winner. For sale only  
at McElroy Bros.

Fresh oysters received Thurs-  
day evening at McElroy Bros.  
grocery.

Try a package of our Bo Ka-  
tea. A half-pound package for  
40 cents. McElroy Bros.

Seats are on sale at the Red  
Cross Drug Store for Eller's Rip  
Van Winkle Co. at Opera House  
Friday, October 13.

TAKEN UP.—On my place a  
sow which the owner can get by  
calling and paying charges.  
H. M. O'NAN.

The latest thing in candles is  
Hildreth's Original Velvet in 10,  
15 and 25 cent packages.  
McElroy Brothers.

Mr. Frank Head who lives  
below town was thrown from a  
horse on Monday and was  
severely bruised, but fortunately  
no bones were broken.

The young son of Mr. Ed  
Graves who lives near Mackville  
fell from a barn loft on Monday  
morning and broke his leg. Dr.  
Robards attended him.

All kinds of repairing done at  
Geo. B. Taylor's shop, from  
patching a shoe to mending a  
bicycle. He also keeps all kinds  
of supplies for any kind of sewing  
machine.

McElroy Bros. have just open-  
ed a nice line of Olives, Olive  
Oil, Hirsch's Pickles, Tomato  
Catsup, Salad Dressing, and  
other nice things for the table.  
Give them a call.

Harry Gambel, son of Mr.  
George Gambel, was married in  
the county clerk's office on Tues-  
day to Miss Annie Smith. Rev.  
W. H. Williams, of the Spring-  
field Baptist church, performed  
the ceremony.

Rip Van Winkle will be pre-  
sented at the Opera House Fri-  
day, October 13, by Eller's b.g  
company. A handsomely uni-  
formed military band and or-  
chestra is a prominent feature,  
and novel specialties will be in-  
troduced. Free band concert at  
noon.

At the recent meeting of the  
Fiscal court it was decided to  
buy a rock crusher and C. H.  
McCarthy representative of the In-  
diana Road Machine Co., is here  
now negotiating for the sale of a  
crusher to the county. By using  
a crusher the working of the  
turnpikes will be greatly facili-  
tated.

A little daughter of Mr. Ben  
P. Simms had the misfortune to  
step on a threaded needle, the  
head penetrating the foot over  
an inch. The needle was drawn  
out of the foot at once by means  
of the thread, but erysipelas de-  
veloped and the child has been  
in a very critical condition,  
though is somewhat improved  
today.

The house-to-house primary  
which was held last week in the  
Williamsburg North Magisterial  
district, resulted in Nitroed Har-  
den being the winner by 16 votes  
over Harlow for the Republican  
nomination, for Justice of the  
peace. Mr. Bryant from the  
North district is claiming the  
nomination made at a convention  
at Tatham Springs several weeks  
ago and would not go into the  
primary.

Edwin "Cyclone" Southern  
has been engaged to open the  
series of the lectures which are  
to be given here this winter, and  
will appear at the Opera House  
on the evening of October 23d,  
in his masterpiece entitled, "If  
I were the Devil". Mr. Southern  
has been continuously before  
the public for 30 years, and  
stands at the front of the

order when he appears here.  
Seats on sale at the Red Cross  
Drug Store.

There was an exciting little  
time at Fredericksburg, on  
last Saturday over the election  
of school trustees. The two  
gentlemen to win are Sam Hall  
and Tom Montgomery and their  
opponents were Alex Thompson  
and D. Mudd.

The revival services in progress  
at the Baptist church increase  
in interest from day to day. The  
earliest preaching of Rev. Taylor  
and the prayers of the members  
are being richly rewarded by the  
many conversions to religion  
and accessions to the church.  
The services will close Friday  
night.

On October 2nd, Mr. Walter W.  
Baker, of Mackville, was married  
to Miss Harriett M. Bayless, of  
Bloomington, Illinois. The cere-  
mony was performed at that  
place by the Rev. Wm. Ross  
Lloyd. Mr. Baker was born and  
raised in this community and  
has many friends here. The  
bride is the only daughter of Mr.  
and Mrs. J. P. Bayless, wealthy  
farmers living South of Bloom-  
ington. She is a highly accom-  
plished young lady, being a  
graduate of the music depart-  
ment of the Wesleyan University  
at Bloomington. Mr. and Mrs.  
Baker are at present at the home  
of Mr. Baker's parents, but later  
will probably make their home  
in Lexington.

Mrs. Missouri A. Price, wife  
of Mr. W. C. Price, died at her  
home here on Tuesday evening  
at 10 o'clock, of a complication of  
diseases, at the 79th year of her  
age. The deceased was born and  
reared in Nelson county and  
had only been living in Spring-  
field since last winter when she  
and her aged husband moved  
here from Bardstown as to be  
near their son, Mr. C. L. Price,  
of this place. Mrs. Price was a  
woman of fine character and had  
been a faithful and devoted wife  
and mother. She is survived by  
her husband and two sons, C. L.  
Price, of this place, and J. B.  
Price, of Daviess county. The  
remains were taken to Bardstown  
this morning for burial.

After about ten days' illness,  
Eugene Hendricks, Carter, the  
little son of Rev. J. W. Carter  
and wife, passed away at their  
home in Lexington, October 9th,  
one year and ten months of age.  
The little one's death was wholly  
unexpected by the parents and  
relatives, and was a great shock  
to them. The remains were  
brought from Lexington Monday  
afternoon and taken to Mr. J. S.  
Yankey's, father of Mrs. Carter,  
Tuesday afternoon. The funeral  
service was conducted at the  
Methodist church at Mackville by  
Rev. Baker, the pastor, assisted  
by Rev. Hughes, President of  
Asbury College, Wilmore. The  
remains were interred in Peters'  
cemetery. The young parents  
have the deepest sympathy of a  
host of friends in this county.

Death of Mrs. Goatley.

Mrs. Rebecca A. Goatley one  
of the oldest residents of the  
county died at the home of her  
niece, Mrs. Charles Donahoe,  
near town, on Monday morning  
of the infirmities of old age.  
The deceased was 89 years old  
and was the widow of the late  
Thomas Goatley who was a well-  
known farmer-citizen of the  
county. She was a woman of  
fine christian character and her  
life was spent in doing good  
deeds for others. Mrs. Goat-

ley's maiden name was Mock,  
she being a daughter of the late  
Reuben Mock, and a sister of  
Mr. Matt Mock, of this county.

The funeral took place from  
the Presbyterian church this  
place on yesterday morning and  
the remains were laid to rest on  
cemetery hill.

Death of Mrs. McKenna

Mrs. Martha McKenna, one of  
the oldest and most respected  
ladies of Springfield, died at her  
home here Monday afternoon at  
about 4 o'clock after an illness  
of several weeks. Her death  
was due to the infirmities incident  
to old age, she having been in  
failing health for several years.

Mrs. McKenna was 82 years  
of age, and was born and reared  
in Springfield. Her maiden  
name was Craycroft, she being a  
member of the well-known fam-  
ily of that name who were among  
the earlier settlers of Spring-  
field. The deceased was twice  
married but never had any chil-  
dren. Her first husband was  
John Stark, who died about the  
year 1856. Later on she was  
married to Mr. Arthur McKenna  
who has been dead about 25  
years. Since the death of her  
last husband Mrs. McKenna had  
lived at the old homestead with  
her sister, Miss Bettie Craycroft.  
Their home was one whose  
latch string ever hung outside  
for their friends and all who  
needed sympathy, and more sub-  
stantial help.

Mrs. McKenna was a woman  
of tender sympathies, enterin-  
g into the sorrows and joys of all  
of her friends, and always evin-  
cing a kindly interest in all that  
concerned the welfare of her  
friends and neighbors. No appeal  
for help was ever made to her,  
but was granted so far as her  
ability would permit. Her life  
was like the seasons—her youth  
like the beautiful springtime of  
promise, the maturity like the  
summer time with its fullness of  
realizations, and old age like the  
autumn when the harvest is  
over she waited patiently for  
the Master to garner her soul  
in the Great Beyond.

The funeral took place on yes-  
terday morning from St. Dom-  
inic church of which the deceased  
was a devout member.

PERSONAL

Mr. C. C. McChord and wife  
are in Louisville.

Will F. Simms has gone to  
Owensboro for a visit.

Conrad Hertlein was in Leba-  
non yesterday on business.

Mr. H. P. McChord and wife  
are visiting relatives in Lebanon.

Mrs. Lizzie Durrett was in  
Louisville the first of the week.

Miss Florence Edelen, enter-  
tained at euchre Tuesday even-  
ing.

Mrs. T. J. Phillips, of Lotus,  
Ky., is the guest of Mrs. M. L.  
Searcy.

Mrs. Nannie Simms and  
daughter, Nannie, are in Louis-  
ville.

Mr. Frank Lewis, of Addison,  
visited friends here the first of  
the week.

Mrs. Irvine Wimsatt has re-  
turned from a visit to friends in  
Louisville.

Dr. W. W. Ray and wife are  
guests of friends here to day  
(Thursday)

Mrs. S. J. Cannon, of Elkton,  
is visiting at the home of Mr.  
Conrad Hertlein.

Mrs. Sam Dorsey, of Edinburg  
Ind., visited her cousin, Mrs. H.  
D. Stiles last week.

Mr. M. T. Fordyce, of Tusca-  
loosa, Ala., was a guest of  
friends here last week.

Miss Catherine Russell spent  
last Sunday visiting her sister,  
Miss Emma, in Louisville.

Mr. F. R. Neale and wife  
spent the latter part of last week  
in Nelson county visiting.

Mr. W. C. Rogers and wife, of  
Lebanon, were guests of Mrs.  
Fred Haglan last Sunday.

Mr. and Mrs. Wallace Brown,  
of Bardstown, attended the Wil-  
liams reunion last Friday.

Miss Maymie McElroy, of Leba-  
non, visited the Misses Kate  
and Annie Mayes Wednesday.

Mr. and Mrs. William Houston  
of Taylorsville, are visiting their  
daughter, Mrs. T. D. Wells.

sister, Elizabeth, spent Sunday  
with their sister, Mrs. J. B. Hill  
at Lebanon.

Mrs. James Phillips, Jr., and  
Mrs. Bettie Murray, of Lebanon,  
spent Sunday with Mrs. A. R.  
Shultz.

Mrs. Peter Shehan, of Mard,  
and daughter, Miss Josephine,  
visited Mrs. R. C. Bobbitt the  
first of the week.

Misses Sallie and Lena Yan-  
key, of Lexington, and Rena  
and Andrew Yankey came from  
Lexington with Mr. Carter and  
wife to the funeral of little  
Eugene Carter.

Mrs. George Tucker entertain-  
ed a number of young people  
last Friday evening with a  
"Spider web" party in honor of  
Miss Miranda Tucker and Louise  
Settle. The house was beauti-  
fully decorated with golden rod  
and other yellow autumn flowers  
and foliage. Miss Tucker was  
gowned in yellow chifon over  
yellow silk. Miss Settle wore  
white net over green silk. The  
color effect was also prettily ob-  
served in the refreshments  
served, which did credit to the  
culinary accomplishments of  
the hostess. Mr. Harry Reed  
was the first to unravel the  
"Spider web" and was present-  
ed a box of candy. The guests  
were Misses Flora Mudd, Katie  
Cain, Lizzie Waters, Florence  
Edelen, Jennie McCabe, Miranda  
Tucker, Louise Settle, Messrs.  
Joe Clements, James Clements,  
Will Leachman, W. D. Clay-  
brooke, Glen Wood, Dr. Crane,  
Harry Reed.

Wards Of Pneumonia.

All coughs, colds and pulmonary  
complaints that are curable are  
quickly cured by One Minute Cough  
Cure. Clears the phlegm, draws out  
inflammation and heals and soothes  
the affected parts, strengthens the  
lungs, wards off pneumonia. Harm-  
less and pleasant to take. Sold by all  
druggists.

Card of Thanks.

I desire to thank my friends  
and neighbors who so kindly ren-  
dered assistance to me during  
and after the destruction of my  
home by fire.

Very Truly,  
LYTLE KAYS

## FATALLY

HURT.

Frank Beaven Loses His Life in a  
Plaining Mill Accident.

Frank W. Beaven, the well-  
known carpenter and citizen of  
the town, died at his home here  
Tuesday afternoon from the ef-  
fects of injuries received while  
at work in the planing mill of  
Maris & Green on Monday  
morning. Mr. Beaven was at  
work at a small circular saw  
cutting out some light timber.  
He had just passed a plank  
through the saw, and instead of  
letting the pieces drop on out on  
the other side, he caught one of  
the pieces and attempted to pull  
it back towards him through the  
same space it had passed while  
being sawed. The plank was  
moved a little out of line and fell  
against the rapidly revolving  
saw and was hurled with terrific  
force against Mr. Beaven, the  
end striking him in the abdomen  
knocking him several feet away.  
A heavy case watch which he  
wore in the watch pocket of his  
trousers was bent all out of shape  
by the blow. Mr. Beaven al-  
though suffering intensely was  
able to walk to his home some  
time after the accident but his  
condition was pronounced dan-  
gerous by the physicians. He  
was suffering from a serious in-  
ternal injury and the doctors  
think he died from internal hem-  
orrhage. He was conscious al-  
most to the end. Frank W.  
Beaven was born on a farm near  
Springfield 51 years ago and was  
a son of Charles Henry and  
Emma Beaven who have both  
been dead for a number of years.  
Mr. Beaven is survived by his  
wife, who was a Miss O'Neal, and  
two married daughters, Mrs. J.  
C. Mudd and Mrs. Walter James.  
A brother, Joe Beaven, is the  
only other near relative sur-  
viving. Frank Beaven was a big  
hearted genial man who had  
many friends. He was a hard  
worker and provided well for his  
family.

The funeral will take place  
from the Catholic church at this  
place at 10 o'clock this morning.

The Original

Foley & Co., Chicago, originated  
Honey and Tar as a throat and lung  
remedy, and on account of the great  
merit and popularity of Foley's Honey  
and Tar many imitations are offered  
and sold. Ask for Foley's Honey  
and Tar and refuse any sub-  
stitute offered as no other preparation  
will give the same satisfaction. It is  
mildly laxative. It contains no opium  
and is safest for children and delicate  
persons. For sale by The Red Cross  
Drug Store.

Family Reunion.

(Communicated.)

The members of the Williams  
family celebrated their annual  
reunion last Friday Oct. 6, at the  
home of Mr. Walter Williams,  
near Springfield. The occasion  
was one of pleasure and enjoy-  
ment, although absent ones were  
missed and a shadow of regret  
for a time may have dimmed the  
happy scene. A grand dinner  
had been prepared, of course, and  
we can imagine how much that  
was enjoyed by all. In the af-  
ternoon business was taken up  
and disposed of, the family de-  
ciding to meet next year at the  
home of Dr. T. D. Williams in  
Bardstown. They have many  
such meetings. These  
presided were Mr. and Mrs. S.  
W. and Mrs. J. R. and Mrs. and  
Mrs. J. B. Rev. Jas. Williams,  
of Shiloh; Dr. and Mrs. T. D.  
Williams, Mr. Wallace Brown  
and wife, of Bardstown, Mr. C.  
M. Williams and wife, Mesdames  
Kate Williams, Eliza Mitchell,  
R. H. Williams, Lydia Walker,  
Laura Lee, Margaret Peters, J.  
N. Hays, Misses Lydia and Katy  
Röbel Williams, Anna Peters,  
Logan and Reed Crane and  
Thomas Marshall Williams.

## THE BLACK SEA REVOLT

Details of Kiaz Potemkin Mutiny as Told by Sailors.

### OFFICERS QUICKLY SHOT DOWN

Several were killed by Matuschenko, the leader, who is held to be responsible for the mutiny. The sailors were driven to Deserter by Food Told to Eat—General Matuschenko.

The details of the recent mutiny on Russian warships in the Black sea are slowly being gathered from members of the crews of the ships involved, says a correspondent of Le Journal of Paris, writing from Kustup, in Roumania.

The Katus Potemkin left Sevastopol on June 24 for open sea maneuvers. The next morning the ship was designated as the vessel to experiment with the new gun. A torpedo boat was dispatched to Odessa for provisions. It returned at midnight.

For breakfast on June 26 "borsch" (Russian broth, cooked with the meat purchased at Odessa, was served to the sailors. Without a dissenting voice they cried that they would not eat the "borsch," the meat being unfit for food. Nevertheless certain sailors did eat the soup, and the declaration did not become known in the cabin.

The day following the soup was re-made with the same meat. This time all sailors refused to eat. Commandant Golevskiy, second in command, and a second lieutenant came along and demanded to know of anybody who ate the soup. Several sailors replied that the meat was tainted. They threatened the officers and the officers returned to the wardroom without saying a word.

Nothing might have happened if the lieutenant had not asked himself at the table and remained thoughtful without touching his food.

"Why do you not eat?" inquired Commandant Golevskiy. "How can one eat," replied the officer, "when we have on board 800 men who refuse their food?"

An ominous silence followed. For some time past the commander of the battleship had heard rumors of a conspiracy against the officers and of the threatened mutiny of the crew. So, after a moment's reflection, he called Sergeant Major Pogworetski and ordered him to have the crew taken to service quarters on the main deck. When they were assembled the commander said:

"Why do you not eat the soup?" There was no response. Commander Golevskiy repeated his question. Still no voice came from the crew. Then the second commandant said:

"They do not eat because the meat given them is full of worms. A murmur of approval came from the ranks of the crew. "But, Reinfort," cried the commandant, "it is true that this meat is full of worms!"

The surgeon saluted and, approaching said: "Commandant, this meat is fresh; it is healthy; it is good. I have never seen better."

Lieutenant Golevskiy turned upon him. "What! Good! I have seen it myself. It is alive with worms!"

The surgeon then said: "Positively you saw it just when it came from the mess. Since then it has rotted and it is dead. It is now good and fit to eat."

At these words the commander seized his hands. "Enough for the present," he said. "What the surgeon says the most is good. It is good. Those who are content to eat the soup will stop to the right; those who do not, to the left."

Shortly, one by one, the sailors passed to the right. Only a few remained who, although they had not yet gone over, although they were preparing to move, the commander stopped them.

"Enough," he said. "Marines, arrest these men!" Then the marines—men who had a short time before been comrades—went after their arms and surrounded these thirty commandants. The commander went at his cabin. One moment later Matuschenko, a sergeant major, with a wild look in his eyes, sprang between decks and ran toward the left. He drew himself up before the officers, crying:

"What would you say to those men? They are going to shoot them. Has not enough blood already been shed in this Russia? After the murder of Lisiansky and Makov, of St. Petersburg and Warsaw—after these murders of the Potemkin! Enough! We might as well shoot them all and end to this reign of barbarity. Long live free Russia! Death to the officers. There are more of us than you. We are the masters. Down with tyranny!"

The second lieutenant, almost faint, interposed: "Hold thy tongue, my poor fellow, or thou'll be shot instant!"

"It is then who will be shot?" cried Matuschenko as he presented his rifle. The lieutenant drew his pistol and fired. He missed Matuschenko, but a sailor named Yakovlevskiy fell dead. There was a moment of stupor, then Matuschenko cried: "Assassin! Thou hast slain Yakovlevskiy. What shall he done to thee? He was innocent!"

With these words he fired on the lieutenant, and the officer fell with blood flying from his blood matted hair. Then followed a period of great confusion. The sailors ran about asking each other what should be done. "Down with these overboard the drum with which he had beaten the men to quarters. Matuschenko shot two officers

## FARSON'S PARADE.

Chicago Banker to Build Gardens Rivaling Groves of Daphne.

John Farson, Chicago, banker and automobile enthusiast, is to build a garden adjoining his beautiful Oak Park residence that will rival the famous grove of Daphne of the days of the Caesars, says the Chicago Inter Ocean. As in the historical garden, there will be just statues of Venus, of Diana and the other goddesses, and at the head of a central aisle, in the middle of the garden, a fountain from an Athenian fountain, Bacchante will smile upon the guests at "Pleasant Home."

More than a million acres of the United States are to be planted with grape vines and the grapes will be used for wine. ## THE BLACK BULL WORK.

Appared Early Last Season—Greatly Reduced the Yield of Cotton.

A long continued cotton planting season, extending from the beginning of March, and the growing of much late cotton give a very promising look for the cotton boll worm, which has already been reported as damaging cotton in various localities. Professor R. L. Smith of Georgia has said in this respect:

Regular appearance in greater or less numbers each year has caused growers to give but little attention to the injury caused by the boll worm. The fact that bollworm injury was as reported so early in the year 1904 makes it seem advisable to mention it quite prominently at this time. The injury to cotton is not common until about Aug. 1, when its favorite food plant, corn, has become hard and distasteful.

Bollworm feeding on cotton the bollworm is often a serious pest on corn, sorghum, beans, peas, clover and tobacco. The latter crop is injured by having the bolls eaten. All the other crops mentioned are injured by the bollworms boring into the fruit or in the case of beans and peas into the pods.

The bollworm belongs to the class of insects that have four distinct stages in their development—namely, adult, egg, larva and pupa. Moths usually appear in spring. The time that corn is ten or fifteen inches high, and in general they prefer to feed on young corn instead of cotton, the eggs being laid on the leaves of the plant, but a preference is shown for silk if it is present.

For these gregarious worms are hatched which are at first pale green in color, but soon become darker. The full grown larvae may vary in size from one-half inch to almost three inches. These worms are voracious feeders, a single individual often destroying a large amount of the crop. This habit of going from one place to another on the plant for the purpose of feeding explains the damage they do. The first hatched worms are placed to another on the leaves until they find a square or form into which they bore. It is during this time that the worms may be poisoned with arsenicals.

Preventing Injury to Cotton. In Georgia the first of the first and possibly five generations. In general it may be said the third brood is the one that injures the cotton most severely at least in the south. The entomologist during June and July, which showed that it must have been the first brood of the first and possibly five generations.
